

RING WARMING CEREMONY

Wedding rings are highly symbolic pieces of jewelry. Throughout history, a wedding ring has represented a binding union and an everlasting commitment between two people.

By itself, these wedding rings are already loaded with meaning. However, before exchanging these physical manifestations of a lifelong love, _____ and _____ have decided to hold a ring warming ceremony.

We invite all of you to spend a few seconds in deep thought and reflection. Once the rings reach you, hold them in your hand for some moments, say a silent wish or prayer for _____ and _____, and warm the rings with your love.

Once these rings return to the lovely couple, they will also be a tangible reminder that they are not alone. As they enter this new chapter of their life, they have a community of people who want nothing but the best for them.
